

# BUILD DATA DASHBOARDS

JOYCE WENDO

: It's been a pleasure to review this project. Everything works perfectly fine and it was very easy to obtain meaningful data from the visualizations.

You definitely got what Tableau is all about!

I wish you the best in whatever is coming next for you

# WHICH AIRLINES HAVE THE WORST DELAYS?

## Link to tableau Public:

[https://public.tableau.com/profile/joyce.wendo#!/vizhome/FlightDelay\\_24/Story1](https://public.tableau.com/profile/joyce.wendo#!/vizhome/FlightDelay_24/Story1)

### Summary:

The Bubble Chart shows clearly that Southwest Airlines Co. has the worst arrival delays, followed by American Airlines Inc.

: This is the kind of insights we were expecting to see! Well done!

: We were expecting to see details of the design choices you made. It would have been great to hear why you chose certain visualizations over other possible options.

# WHAT CAUSES DELAYS?

## Link to tableau Public:

[https://public.tableau.com/profile/joyce.wendo#!/vizhome/FlightDelay\\_24/Story1](https://public.tableau.com/profile/joyce.wendo#!/vizhome/FlightDelay_24/Story1)

### Summary:

Most delays are caused by departure delays, followed by Arrival delays, then Late Aircraft Delay.

Most of the delays happen in June.

Dallas/Fort Worth International Airport leads the chart in having maximum delays followed by Chicago O'Hare.

: Fantastic use of titles in all your story!

# WHICH STATE HAS THE MOST EFFICIENT AIRPORTS?

## Link to tableau Public:

[https://public.tableau.com/profile/joyce.wendo#!/vizhome/FlightDelay\\_24/Story1](https://public.tableau.com/profile/joyce.wendo#!/vizhome/FlightDelay_24/Story1)

### Summary:

The most efficient airports according to the streetmap , are California and texas, where the least number of flights are cancelled.

: The filters work just great. You definitely got the idea!

: Your dashboard is just flawless. Well done!

# WHAT CAUSES DELAYS?
